PREPARING A DINNER PARTY

Giving a dinner party is a wonderful way of entertain people. You can also make new friends and give others the chance to get to know each other better.

It needs planning, though. First, make a guest list, with different kinds of people and a mixture of women and men. Don't invite couples because they aren't so much fun.

When you know who can come, find out what they like to eat and drink. Note down any who are vegetarians, or who can't eat or drink certain things for religious seasons.

Then plan their menu. Include a first course, a choice of main courses and a dessert, plus lots of people's favourite drinks.

The next thing to do is the shopping. Make sure buy more than enough of everything, and that someone can help you carry it!

On the day, start cooking early. Give people appetizers like Greek mezze or Spanish tapas, so they don't get hungry if they have to wait. Serve the delicious meal, sit down with your guests and have a good time – you've earned it!

C. READING	

Read the passage and choose one correct answer for each question.

The nuclear family, consisting of a mother, father, and their children may be more an American ideal than an American reality. Of course, the so-called traditional American family was always more varied than we had been led to believe, reflecting the very different racial, ethnic, class, and religious customs among different American groups.

The most recent government statistics reveal that only about one third of all *current* American families fit the traditional mold and another third consists of married couples who either have no

children or have none still living at home. Of the final one third, about 20 percent of the total number of American households is single people, usually women over sixty-five years of age. A small percentage, about 3 percent of the total, consists of unmarried people who choose to live together; and the rest, about 7 percent, are single, usually divorced parents, with at least one child.

GOING TO A WEDDING

I am going to a wedding ... (36) ... Saturday. My great friend, Marie, and her fiancé, George, are getting married. They have known each other for five years, but they have only been going out together a short time. I must say, we were all rather ... (37) ... when they announced that they were engaged.

The wedding will be in the church near Marie's home and afterwards there will be a party in the Church Hall. There will be almost a hundred ... (38) ... at the party. Besides both ... (39) ... families, all Marie's friends from college will be at the wedding and Marie and George have also ... (40) ... a lot of people from the office where they both work. The party should be great fun. There will be lots of food and drinks. There is also going to be a band. We all expect that it will go on until late in the evening.
